

Merope Department

About Us

We are a group of people that aim for preserve knowledge and information in general.

With the different skill and knowledge that member have, a wide range of subject can be cover to achieve our goal.

We are still in a early stage of a group and we are experiment different way to make us become better and sophisticated.

Ways of working

Publishing information for accessibility on internet is a harsh process. It require a system to contain the information and version control.

Here are some way that we do our work:

- Using a wiki framework to publication and ease of access.
- Using the wiki for knowledge Base for members.
- Using a blogging system for news update.
- Using Moodle framework as medium to provide course for members and chosen public.

Why Publication

Publication work are for members can access important information in bit form and abstract of any meeting or activity and it's main point. Though publication can be time consuming, we are trying to keep it in simple format without fancy graphics, just to provide key information.

Publication is also a good way to presents content that standard document cannot. As publication have more flexibility and format.

Here are the main including point:

- Meeting Memo
- Activity & working group review
- Major event & news
- General Information

First-Step work

There are some of our work are available on our wiki page. Since we are giving our member freedom of creation, the topic may vary. We try to keep our work consistence and high quality. In order to gives our reader a good image on us.

Here a list of work we are doing:

- Japanese Author Article Review
- Hong Kong Culture Analyze
- Hong Kong History
- Technology review
